

AIR COOLED HEAT EXCHANGER

CHEMTED offers a wide range of air cooled heat exchangers based on different process requirements and parameters.

Design Code & Standards:

Experts at CHEMTED have a wealth of experience of cooling applications across all industry sectors with proper design for noise control & 100% thermal efficiency.

- ASME Section VIII Div. 1
- API Standard 661
- Customer Specifications
- ISO 9001:2015 Quality Management System

Air Cooled Heat Exchanger Offered Products:

- Gas Pre-Coolers / Inter-Coolers / After-Coolers
- Process Condensers
- Refrigerant Condensers
- Product Coolers
- Lube Oil Coolers & Others

Design Configurations:

- Forced Draft
- Induced Draft
- Horizontal
- Vertical
- A-Frame

Material of construction of tubes & its type are based upon most economics, proficient & other process/mechanical requirements.

State of the Art Manufacturing Facility:

- High Precision Production Tools
- Quality Assurance into Every Step of Production
